Production Environment Test	For CZ eP(A): tests with PL as eP(B) <ul style="list-style-type: none"><li>- Findings: f-45 (medium impact)</li><li>- Observations: 3</li></ul> For PL eP(A): tests with CZ as eP(B) <ul style="list-style-type: none"><li>- Findings: f-45 (medium impact)</li><li>- Observations: 3</li></ul>
Compliance Check outcomes	
Follow-up initial Compliance Check	Compliance Check report from 04.11.2022: Findings: 2

On 24 May 2023, the eHMSEG adopted a positive position recommending to the eHealth Network that the Czech Republic should be authorised to start the NCPeH ePrescription A and B services in routine operations.

Taking this into consideration, the eHealth Network adopts the positive Decision regarding the Czech NCPeH starting the ePrescription A and B services in routine operations.

Adopted by the eHealth Network in written procedure on 02.06.2023.
